PROFESSIONAL SUMMARY

Passionate full-stack web developer with hands-on experience in building scalable and responsive applications using the MERN stack. Proficient in Node.js, Express, and MongoDB for developing robust server-side logic and RESTful APIs. Adept at creating seamless front-end experiences with React.js and Tailwind CSS. Quick learner, strong team player, and deeply motivated to build impactful web solutions.

PROFESSIONAL EXPERIENCE

Tezash Tech Pvt. Ltd, Birgunj, Nepal | Jun 2025 – Present

FULLSTACK DEVELOPER

- Working on React/Next.js projects, fixing bugs, improving UI, and optimizing performance.
- Collaborating with the team to deliver responsive, user-friendly interfaces.

LennoByte Solutions Pvt. Ltd, Birgunj, Nepal | October 2023 – October 2024

WEB DEVELOPER

- Worked on real-world projects, including Enterprise Management Systems (EMS).
- Enhanced system development and problem-solving skills while collaborating in a dynamic team environment.
- Developed and optimized user interfaces for web applications.

LennoByte Solutions Pvt. Ltd, Birgunj, Nepal | MAY 2023 – October 2023

FRONTEND INTERNSHIP

- Built responsive interfaces using React.js, JavaScript, and CSS.
- Improved API integration skills and worked on real-world applications.
- Gained hands-on experience and learned React Native for mobile app development with a professional development team.

TECHNICAL PROJECT EXPERIENCE

BirgunjByte> [LINK](#)

- Developed a Nepali-medium news portal using the MERN stack, tailored for CAN member of Madhesh Province. The project features dynamic news and category management, leveraging React with TypeScript for the frontend and **Zustand** for state management. Implemented backend APIs with Node.js and **Express**, integrating **MongoDB**.

SkyWatch WeatherApp > [LINK](#)

- Developed **SkyWatch**, a weather app delivering real-time global updates with efficient data fetching and caching using React TanStack Query. Responsive design for multiple devices.

Pustakbazzar > [LINK](#)

- In this project, as a backend developer, I built the backend for **PustakBazzar**, a platform for buying, selling, donating, and renting books to promote sustainability. Designed and optimized APIs for smooth frontend integration, and implemented secure authentication and authorization using **JWT** and **Bcrypt**.

News Portal Admin Pannel > [LINK](#)

- Design and developed an Admin panel of News Portal site where we easily manage news posts and users and advertisement

Ecommerce Admin Pannel > [LINK](#)

- Design and developed an Admin panel of Ecommerce site where we easily manage orders and users and purchase/sales book.

Medi Connect > [LINK](#)

- Created doctor's appointment web app, where user take appointment from doctors and doctors to manage appointment and admin manages entire app.

EDUCATION

Bachelor of Computer Application National Infotech College, Birgunj, Nepal (Present)

Intermediate (PCM) MMC, Hetauda, Nepal (April 2019 - May 2021)

TECHNICAL PROFICIENCIES

- **Programming Languages**: JavaScript, Java
- **Technologies and Frameworks**: Git & GitHub, REST
- **Operating system**: working experience on Windows and MacOS
- **Database & Version Control**: MySQL, MongoDB, and Git
- **Frontend Technologies**: React.js, HTML, CSS, JavaScript, TypeScript, Tailwind CSS
- **Backend Technologies**: Firebase, Express, Nodejs

ACHIEVEMENTS AND AWARDS

- **NI Ideathon 2024 Winner**: Won first place at NI Ideathon 2024 by developing an innovative solution, KitabKunj, a platform that makes it easy for people to buy, sell, donate, and rent books, promoting a sustainable reading culture.
